Belinda Mouradian	Palm Beach State College	Healthcare	mouradib@palmbeachstate.edu

B. SUMMARY REPORT

1. Summary analysis of the local labor market based on the industry representative needs and education offerings. (Provide summary)
This was not required as this was a follow up meeting to the action items of the original two meetings.
2. Information on priority industry sectors and occupations for the local area. (Provide summary) This was a follow up meeting for the Healthcare Industry and Education Consortium. Three main priorities were met.
 - a. Educational partners identified how many graduating seniors were available for work upon graduation in each field of study this December 2024.
 - b. Local job fairs were to be attended by health care providers.
 - c. Educational partners added course work for the current and coming semester, increased cohort sizes and added classes for Spanish speaking students in the evening. Pathway was updated live during the meeting.
 - d. Classes were deleted due to continuous low enrollment.
 - e. Classes were updated based on different campus locations.
3. Information on the status of existing talent pipelines for in-demand occupations. (Provide summary) see above.
Next meeting will occur in March to discuss May graduates, and the addition of the newest classes medical imaging, a new offering at PBSC. All schools reporting a robust enrollment for all classes. List of new graduates to be sent to industry partners not on this call.
